Jersey City Medical Center To Hold Annual Community Meeting On October 6

Jersey City Medical Center will host its annual meeting for the community on Thursday, October 6th (6:30 – 7:30 p.m.) in its first floor cafeteria at 355 Grand Street in Jersey City.

"We strongly encourage people who live and work in the communities we serve to attend the meeting in order to get a closer look at Jersey City Medical Center and the work we do," said Joseph F. Scott, President and CEO of LibertyHealth, which operates and manages Jersey City Medical Center. "It will be an opportunity to learn about our new programs, services, and centers; find out more about our continuing community education events; and see what they can do to "Enhance Life" in their own communities."

According to Scott, 2011 has been a very positive year for Jersey City Medical Center. For an unprecedented second year, the hospital was named the best for its size in New Jersey (among those with under 350 beds) by *Inside New Jersey* and Castle Connolly, as chosen by physicians and patients throughout the state. During this year, the hospital opened the Liberty Ambulatory Surgery Center and moved The Comprehensive Spine Institute of New Jersey to its own building, and offered such new services as smoking cessation and treatment for infertility.

Attendees at the community meeting will have the opportunity to meet members of the Board of Trustees and hospital leaders, and participate interactively in discussions about the hospital's programs and services. A movie featuring hospital patients and clinicians will be shown and Joseph Scott will speak about the future of health care.

There is no cost to attend the meeting. To RSVP, call Anne McGree at 201-377-6057 by no later than October 3rd. For more information, visit www.libertyhealth.org.
