

Nursing Delegation & Shift Report Review

Liberty Health

Purpose: The Nursing Delegation and Shift Report Review will provide nurses with information and techniques of effective delegation methods and a systematic approach to providing clear and accountable patient report in the realm of best nursing practice.

Target Audience: Nurses, Nurse Residents, & Nursing Students

Objectives:

- Distinguish skills for delegating and supervising effectively.
- Analyze the responsibilities of those involved in the process of delegation.
- Describe effective decision making to bring about a positive outcome of delegation in the workplace.
- Specify appropriate delegation tasks to trained staff members and evaluate to improve and/or commend performances.
- Discuss methods of providing thorough patient report, patient safety, and accountability strategies when endorsing patient care.
