COMPETENCY BASED JOB DESCRIPTION

TITLE: Wound Care Nurse
Employee Name: 
Reports to: Director of Patient Care Service
Department: Patient Care Services
Effective: February 2006
Revised Date: 
Calendar Year: 

Education Requirements: Graduate of accredited Registered Nursing Program
Current State License in good standing.
At least five (5) years’ experience in acute care nursing.

Certifications: BLS and as defined by Specific Unit

RATING SCALE: √ the appropriate rating for each item

Unsatisfactory: Performance consistently does not meet the expected level of performance of the job standard. The employee is unable to perform the standard without substantial and consistent assistance and close monitoring. At this level, verbal counseling has often taken place regarding job performance.

Below Standard: Performance frequently does not meet the expected level of performance of the job standard. The employee needs additional assistance and frequent monitoring.

Meets Standard: Performance consistently meets the expected level of performance of the job standard. Employees at this level have a complete understanding of all aspects of the job and can execute the standard as expected. Employees require normal monitoring.

Exceeds Standard: Performance frequently exceeds the expected level of performance of the job standard. All aspects of the job are fully understood and executed. The employee occasionally takes the larger or more difficult assignments, completes the assignment and assists others or performs extra tasks.

Outstanding: Performance consistently exceeds the expected level of performance of the job standard. All aspects of the job are fully understood and executed. The employee routinely takes the larger or more difficult assignments, completes the assignment and assists other or performs extra tasks.

Note: all ratings of “Unsatisfactory,” “Below Standard,” “Exceeds Standard,” and “Outstanding” must be documented with a behaviors in the comments section. Mark each category and total score with a √ mark. Overall rating of unsatisfactory or below standard may require counseling, remediation and / or work improvement plan.

Job Summary
Under the direction of the Director of Patient Care Services, the Wound Care Nurse communicates and collaborates closely with physicians and other members of the health care team to provide consistent care for patients with wounds. Working with a high degree of autonomy, the Wound Care Nurse accepts responsibility and accountability for assigned patients as a case manager to plan, implement, and evaluate the care for pediatric, adult, and geriatric patients. The Wound Care Nurse works within the framework of the State Nurse Practice Act and follows all of Jersey City Medical Center and its affiliates policies and procedures. He/She complies with Hospital and Nursing philosophy and standards while performing job responsibilities and will demonstrate competence in these key job areas through the ability to perform functions, including, but not limited to, the common examples listed.

DUTIES AND RESPONSIBILITIES
- Provides the patient with care that is continuously evaluated, planned for and revised as needed
- Documents the patient’s status in the assessment and will include the patient care needs, interventions to meet the patient’s needs, nursing care provided, the patient’s response to, and the outcome of the care provided.
- Demonstrates the ability to handle emergency situations during high-risk procedures.
- Demonstrates knowledge and understanding of the wound care protocol while exercising clinical competence in nursing skills and following procedures based on Jersey City Medical Center and its affiliates.
- Integrates diagnostic data into health assessment notifying physicians of results.
- Ensures that the documentation is clear, concise and includes, but is not limited to patient evaluations, status, care needs, intervention, outcome and reassessment.
- Demonstrates competence in-patient and family education on common topics including but not limited to wound care, dressing applications, compression therapy, diabetes foot care, venous disease, and underlying disease processes.
- Positions patients safely
- Prep and drapes patients correctly for all procedures
- Carries out medical and surgical asepsis during all procedures.
