Support and Advice for Heart Patients and their Care Providers

Jersey City Medical Center is hosting a support group for cardiac patients and their caregivers. The event will enable heart patients to connect with people in similar situations, and provide them with invaluable advice on how to live a full, rich and heart-healthy life.

Caregivers will receive helpful tips on how to administer the most effective and efficient care and assistance. Guests will include cardiac physicians and nutritionists who will outline positive clinical and dietary steps patients can take to expedite their recovery and improve their heart health. There are numerous chances to attend:
