 - VAPS (ICU)
 - Sepsis
 - Core Measures
 - RRT-EWSS:
- Press Ganey related to Quality and Safety: Pain, education, courtesy, respect & response time:

III. Satisfaction

Last years meeting a magnet consultant was present at the meeting. The consultant suggested that there should be five things that should be brought up to this committee should patient education, courtesy and respect, nurse response time, and pain management. Claudia said that what magnet is looking for is how we are tackling this issues and what we are doing about them. Why it's important to look at this is because the patent representatives look at these things. Erika Kurtenbach presented the 2011 press ganey scores for the above items. She also explained the process of Press Ganey and HCAPS. It was decided by the group that we would concentrate our efforts on response to call bell.

- Daisy Award Nominations

- Daisy Award:

Winner is Helen Im RN from 7 east. She was nominated by Dan Poupart (staff). Her award will be presented at the nurse excellence award

IV. Economic Health	<p>Kushbu Desai RN 6W discussed how using the TCAB process a rapid response box was developed using staff input. This will ensure that the RRTs run smoothly and eliminate the need for nurses to run for supplies. The RRT boxes will be stored on there code cart. A check list was made with the items and it will be replaced by the staff when it is utilized.</p>	
AGENDA	DISCUSSION	ACTION/FOLLOW UP/RESPONSIBLE PARTY
